

May 8, 2017

Dear Valued Customer,

We are thrilled to announce the launch of our updated e-towing portal!!

In January 2017 we migrated to a new ERP (Enterprise Resource Planning) system to allow us the power to manage and grow our business into the future.

Although the disruptions to our day to day operations were limited, some of our connections to links including our e-towing portal were impacted and interrupted. We do sincerely apologize for all struggles you may have experienced with our e-towing portal through this period. We trust you will find the recent changes made as improvements and please know that we will continuously improve this dynamic element of our business.

If you are a long time user of this powerful and valuable online tool, you will be pleased with the enhancements we have made including;

- New layout for ease of navigation
- Visual inventory display
- Access to Invoices, Credits, Statements, BOLs and more!!!

If you are new to our portfolio of our brands, products and services, we urge you to connect immediately and enjoy the ease of;

Checking inventory
Tracking Orders

Placing Orders
Invoice History

If you are interested in gaining access to this powerful tool please contact your local Sales Manager or our World Class Customer Service Team for more details.

For all, we thank you for your continued support, we look forward to serving your needs and invite you to www.e-towing.com to experience the ease of doing business with us and our portfolio of industry leading brands.

Regards,

John Aleva
President, Horizon Global Americas
